

60% will commit crimes

63% are alcoholics

20% commit or attempt suicide

50% will divorce

20% have filed for bankruptcy

50% will abuse spouses and children

After the age of 21, gambling problems are more common than booze dependence.

## Still think gambling is harmless entertainment?

*Look at what it has done to Nevada . . .*

Nevada is one of the ten states facing imminent bankruptcy. Nevada has an unemployment rate of 14.3% - one of the worst in the country. Nevada has the highest crime rate in the nation for 2004 to 2010.

Nevada ranked as the worst state in the nation for retiring. Clark County (Las Vegas) residents were as much as 62% more likely to commit suicide than other U.S. citizens.

Las Vegas is known for having one of the lowest performing school districts in the nation.

**The number of problem gamblers  
DOUBLES when there's a casino within 50 miles.**

Get the FACTS!**

## They play . . . YOU pay!

\$\$\$  
*The annual loss due to fraud  
by pathological gamblers is estimated  
to be \$1.32 BILLION.*

Harvard Medical School

\$\$\$  
*The cost per pathological gambler  
each year is \$13,586.*

Business Profitability vs. Social Profitability

\$\$\$  
*Make no mistake, you WILL be paying for:*

**CRIME  
BANKRUPTCY  
SUICIDE  
ILLNESS  
SOCIAL SERVICE COSTS  
GOVERNMENT REGULATORY COSTS  
FRAUD**

And our government is actually calling gambling expansion GOOD for Florida?

Could it be that they ignore the true costs to taxpayers while reaping the benefits of additional revenues?

When we expand casinos, only the government and the casinos win.
